

## Lab 7

### Part 1:

In lab 4 we wrote a BookController application. Rewrite this application so that you can access it with graphQL

### Part2:

In lab 5 we wrote a Bank application including layers and MongoDB access. Rewrite this application so that you can access it with graphQL

### What to hand in?

1. Zip every project into one zip file
2. Write a readme.txt file with the following content:
  - a) Status of the lab. Describe here if you finished all parts of the lab or not. If you did not finish the lab, describe which parts are finished, and which parts not. Describe clearly why some parts are not finished.
  - b) Write the following statement and sign with your name:

***I hereby declare that this submission is my own original work and to the best of my knowledge it contains no materials previously published or written by another person. I am aware that submitting solutions that are not my own work will result in an NC for the course.***

***[your name as signature]***

Submit your files in sakai as your solution of the lab.
