Lab 8

Part 1:

Modify the given code of Lesson8RestSecurityDemo so that we have 3 endpoints:
/shop is accessible by everyone
/orders is accessible by all employees
/payments is accessible only by employees of the finance department

Make usernames and passwords for Bob (who is an employee of the sales department) and Mary (who is an employee of the finance department)

Test your application using postman

Part2:

Modify the given code of Lesson8JwtSecurityDemo so that we have 3 endpoints:
/shop is accessible by everyone
/orders is accessible by all employees
/payments is accessible only by employees of the finance department

Make usernames and passwords for Bob (who is an employee of the sales department) and Mary (who is an employee of the finance department)

Test your application using postman

What to hand in?

1. Zip every project into one zip file
2. Write a readme.txt file with the following content:
   a) Status of the lab. Describe here if you finished all parts of the lab or not. If you did not finish the lab, describe which parts are finished, and which parts not. Describe clearly why some parts are not finished.
   b) Write the following statement and sign with your name:

   I hereby declare that this submission is my own original work and to the best of my knowledge it contains no materials previously published or written by another person. I am aware that submitting solutions that are not my own work will result in an NC for the course.

   [your name as signature]

Submit your files in sakai as your solution of the lab.
